GRØNLANDS FORSKNINGSRÅD · GREENLAND RESEARCH COUNCIL

NIS

Presentation of  
**The Greenland Research Council**  
at  
Arctic Circle Greenland From  
May 17 – 19, 2016

# Tasks of NIS

Greenland Research Council works for boosting research anchored in Greenland for the benefit of society in Greenland.

- Increase research, scope of activities and training of researchers
- Coordinate & prioritize research efforts
- Boost participation within both national and international cooperation on research
- Boost cooperation between public and private sector research
- Make greater use of research results and innovation, incl. as basis for commercialisation
- Increase Greenland research communication to the public
- Assess and prioritise applications for research funding

# Members of NIS

7 members from all sciences  
and 1 business representative are set by the  
Greenlandic research institutions

In the end the Minister appoint the members

At least 2 meetings are held a year

# Greenlandic Research Institutions

**Ilisimatusarfik** (University of Greenland)

[www.uni.gl](http://www.uni.gl)

**Pinngortitaleriffik** (Greenland Institute of Natural Resources)

[www.natur.gl](http://www.natur.gl)

**Nunatta Katersugaasivia Allagaateqarfialu** (Greenland National Museum and Archive)

<http://natmus.gl>

**Kalaallit Nunaanni Naatsorsueqqissaartarfik** (Greenland Statistics)

<http://www.stat.gl>

**ASIAQ** (Greenland Survey)

[www.asiaq.gl](http://www.asiaq.gl)

**Inerisaavik** (Pædagogisk Center)

<http://www.inerisaavik.gl>

**Dronning Ingrid's Hospital in Nuuk** (hospital)

[www.peqqik.gl](http://www.peqqik.gl)

**Center of Arctic Technology** (ARTEK)

<http://www.artek.byg.dtu.dk>

# Strategy

Greenland Research Council aims at supporting the best possible needs of research for the development of the Greenlandic Society

1. Advice
  2. Promotion
  3. Innovation
- Consolidation of functions
  - Establish a dialog between research community and the public
  - Achieve a level of public research corresponding to 1 % of GDP

# International research

Boost and develop cooperation with:

- international researchers
- research institutions
- research environments

NIS will increase visibility and awareness of Greenland research by actively taking part in international foras dealing with Arctic in:

Networks

Organisations

Commissions

# Research environment

The Greenland Research Council aims at creating and bringing awareness to the research environment in Greenland

The Greenland Research Council aims at collecting knowledge of international research conducted in Greenland

# Database - Statistics

Start-up register of research

Make knowledge available to all

# Secretariat
